## Letter of Recommendation

Dear Admissions Committee,

Demetris, after completing his school obligations, was called by his homeland, Cyprus, on July 15, 2020, to fulfill his 14-month mandatory military service. Demetris chose to voluntarily serve in the Special Forces of Cyprus (equivalent to the US Marines), one of the most elite and demanding units of the National Guard, renowned for its rigorous and exhaustive training.

Upon completing the basic and specialized training of the Special Forces, Demetris, with the awarding of the green beret, officially became a member of the prestigious Special Forces family. Demetris acquired expertise in Communications and Networking and was placed under my supervision thereafter.

He was one of my smartest soldiers, with exceptional skills in wireless communications, data and signal encryption. Demetris was a trustworthy individual, diligent in all his duties, and always willing to share the knowledge he acquired with his colleagues. He exhibited strong teamwork and leadership skills, which made him stand out.

Sincerely,

A handwritten signature in black ink, appearing to read "Georgiou Kostas".

Georgiou Kostas
